

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the quarterly period ended March 31, 2022

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the transition period from _____ to _____

O'REILLY AUTOMOTIVE, INC.
(Exact name of registrant as specified in its charter)

Missouri
(State or other jurisdiction of
incorporation or organization)

000-21318
Commission file number

27-4358837
(I.R.S. Employer Identification No.)

233 South Patterson Avenue
Springfield, Missouri 65802
(Address of principal executive offices, Zip code)

(417) 862-6708
(Registrant's telephone number, including area code)

Not applicable
(Former name, former address and former fiscal year, if changed since last report)

Securities registered pursuant to Section 12(b) of the Act:

<u>Title of Each Class</u>	<u>Trading Symbol(s)</u>	<u>Name of Each Exchange on which Registered</u>
Common Stock, \$0.01 par value	ORLY	The Nasdaq Stock Market LLC (Nasdaq Global Select Market)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Emerging growth company
Non-accelerated filer Smaller reporting company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date: Common stock, \$0.01 par value - 65,725,434 shares outstanding as of May 2, 2022.

O'REILLY AUTOMOTIVE, INC. AND SUBSIDIARIES
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)
March 31, 2022

NOTE 1 – BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of O'Reilly Automotive, Inc. and its subsidiaries (the "Company" or "O'Reilly") have been prepared in accordance with United States generally accepted accounting principles ("U.S. GAAP") for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months ended March 31, 2022, are not necessarily indicative of the results that may be expected for the year ended December 31, 2022. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2021.

Principles of consolidation:

The condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All inter-company balances and transactions have been eliminated in consolidation.

NOTE 2 – VARIABLE INTEREST ENTITIES

The Company invests in certain tax credit funds that promote renewable energy. These investments generate a return primarily through the realization of federal tax credits and other tax benefits. The Company accounts for the tax attributes of its renewable energy investments using the deferral method. Under this method, realized investment tax credits and other tax benefits are recognized as a reduction of the renewable energy investments.

The Company has determined its investment in these tax credit funds were investments in variable interest entities ("VIEs"). The Company analyzes any investments in VIEs at inception and again if certain triggering events are identified to determine if it is the primary beneficiary. The Company considers a variety of factors in identifying the entity that holds the power to direct matters that most significantly impact the VIEs' economic performance including, but not limited to, the ability to direct financing, leasing, construction and other operating decisions and activities. As of March 31, 2022, the Company had invested in four unconsolidated tax credit fund entities that were considered to be VIEs and concluded it was not the primary beneficiary of any of the entities, as it did not have the power to control the activities that most significantly impact the entities, and has therefore accounted for these investments using the equity method. The Company's maximum exposure to losses associated with these VIEs is generally limited to its net investment, which was \$24.1 million as of March 31, 2022, and was included in "Other assets, net" on the accompanying Condensed Consolidated Balance Sheets.

NOTE 3 – FAIR VALUE MEASUREMENTS

The Company uses the fair value hierarchy, which prioritizes the inputs used to measure the fair value of certain of its financial instruments. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement). The Company uses the income and market approaches to determine the fair value of its assets and liabilities. The three levels of the fair value hierarchy are set forth below:

- Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity can access at the measurement date.
- Level 2 – Inputs other than quoted prices in active markets included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 – Unobservable inputs for the asset or liability.

Financial assets and liabilities measured at fair value on a recurring basis:

The Company invests in various marketable securities with the intention of selling these securities to fulfill its future unsecured obligations under the Company's nonqualified deferred compensation plan. See Note 10 for further information concerning the Company's benefit plans.

The Company's marketable securities were accounted for as trading securities and the carrying amount of its marketable securities were included in "Other assets, net" on the accompanying Condensed Consolidated Balance Sheets as of March 31, 2022, and

December 31, 2021. The Company recorded a decrease in fair value related to its marketable securities in the amount of \$2.8 million and an increase in fair value related to its marketable securities in the amount of \$1.5 million for the three months ended March 31, 2022 and 2021, respectively, which were included in “Other income (expense)” on the accompanying Condensed Consolidated Statements of Income.

The tables below identify the estimated fair value of the Company’s marketable securities, determined by reference to quoted market prices (Level 1), as of March 31, 2022, and December 31, 2021 (in thousands):

	March 31, 2022			
	Quoted Priced in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Marketable securities	\$ 53,370	\$ —	\$ —	\$ 53,370

	December 31, 2021			
	Quoted Prices in Active Markets for Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Marketable securities	\$ 52,456	\$ —	\$ —	\$ 52,456

Non-financial assets and liabilities measured at fair value on a nonrecurring basis:

Certain long-lived non-financial assets and liabilities may be required to be measured at fair value on a nonrecurring basis in certain circumstances, including when there is evidence of impairment. These non-financial assets and liabilities may include assets acquired in a business combination or property and equipment that are determined to be impaired. As of March 31, 2022, and December 31, 2021, the Company did not have any non-financial assets or liabilities that had been measured at fair value subsequent to initial recognition.

Fair value of financial instruments:

The carrying amounts of the Company’s senior notes and unsecured revolving credit facility borrowings are included in “Long-term debt” on the accompanying Condensed Consolidated Balance Sheets as of March 31, 2022, and December 31, 2021.

The table below identifies the estimated fair value of the Company’s senior notes, using the market approach. The fair value as of March 31, 2022, and December 31, 2021, was determined by reference to quoted market prices of the same or similar instruments (Level 2) (in thousands):

	March 31, 2022		December 31, 2021	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Senior Notes	\$ 3,827,891	\$ 3,846,099	\$ 3,826,978	\$ 4,135,629

The carrying amount of the Company’s unsecured revolving credit facility approximates fair value (Level 2), as borrowings under the facility bear variable interest at current market rates. See Note 5 for further information concerning the Company’s senior notes and unsecured revolving credit facility.

The accompanying Condensed Consolidated Balance Sheets include other financial instruments, including cash and cash equivalents, accounts receivable, amounts receivable from suppliers and accounts payable. Due to the short-term nature of these financial instruments, the Company believes that the carrying values of these instruments approximate their fair values.

NOTE 4 – LEASES

The Company leases certain office space, retail stores, distribution centers and equipment under long-term, non-cancelable operating leases. The following table summarizes Total lease cost for the three months ended March 31, 2022 and 2021, which were primarily included in “Selling, general and administrative expenses” on the accompanying Condensed Consolidated Statements of Income (in thousands):

	For the Three Months Ended	
	March 31,	
	2022	2021
Operating lease cost	\$ 89,709	\$ 87,219
Short-term operating lease cost	2,777	1,933
Variable operating lease cost	23,457	21,944
Sublease income	(1,145)	(1,198)
Total lease cost	\$ 114,798	\$ 109,898

The following table summarizes other lease-related information for the three months ended March 31, 2022 and 2021:

	For the Three Months Ended	
	March 31,	
	2022	2021
Cash paid for amounts included in the measurement of operating lease liabilities:		
Operating cash flows from operating leases	\$ 89,829	\$ 84,415
Right-of-use assets obtained in exchange for new operating lease liabilities	63,934	110,567

NOTE 5 – FINANCING

The following table identifies the amounts included in “Long-term debt” on the accompanying Condensed Consolidated Balance Sheets as of March 31, 2022, and December 31, 2021 (in thousands):

	March 31, 2022	December 31, 2021
3.800% Senior Notes due 2022, effective interest rate of 3.845%	\$ 300,000	\$ 300,000
3.850% Senior Notes due 2023, effective interest rate of 3.851%	300,000	300,000
3.550% Senior Notes due 2026, effective interest rate of 3.570%	500,000	500,000
3.600% Senior Notes due 2027, effective interest rate of 3.619%	750,000	750,000
4.350% Senior Notes due 2028, effective interest rate of 4.383%	500,000	500,000
3.900% Senior Notes due 2029, effective interest rate of 3.901%	500,000	500,000
4.200% Senior Notes due 2030, effective interest rate of 4.205%	500,000	500,000
1.750% Senior Notes due 2031, effective interest rate of 1.798%	500,000	500,000
Total principal amount of debt	3,850,000	3,850,000
Less: Unamortized discount and debt issuance costs	22,109	23,022
Total long-term debt	\$ 3,827,891	\$ 3,826,978

Unsecured revolving credit facility:

The Company is party to a credit agreement dated June 15, 2021 (the “Credit Agreement”). The Credit Agreement provides for a five-year \$1.8 billion unsecured revolving credit facility (the “Revolving Credit Facility”) arranged by JPMorgan Chase Bank, N.A., which is scheduled to mature in June of 2026. The Credit Agreement includes a \$200 million sub-limit for the issuance of letters of credit and a \$75 million sub-limit for swing line borrowings under the Revolving Credit Facility. As described in the Credit Agreement governing the Revolving Credit Facility, the Company may, from time to time, subject to certain conditions, increase the aggregate commitments under the Revolving Credit Facility by up to \$900 million, provided that the aggregate amount of the commitments does not exceed \$2.7 billion at any time.

As of March 31, 2022, and December 31, 2021, the Company had outstanding letters of credit, primarily to support obligations related to workers’ compensation, general liability and other insurance policies, under the Credit Agreement in the amounts of \$78.7 million and \$84.0 million, respectively, reducing the aggregate availability under the Credit Agreement by those amounts. Substantially all of these outstanding letters of credit have a one-year term from the date of issuance. As of March 31, 2022, and December 31, 2021, the Company had no outstanding borrowings under its Revolving Credit Facility.

Borrowings under the Revolving Credit Facility (other than swing line loans) bear interest, at the Company’s option, at either an Alternate Base Rate or an Adjusted LIBO Rate (both as defined in the Credit Agreement) plus an applicable margin. The Credit Agreement includes customary provisions to provide for the eventual replacement of LIBOR as a benchmark interest rate. Swing line loans made under the Revolving Credit Facility bear interest at an Alternate Base Rate plus the applicable margin for Alternate Base Rate loans. In addition, the Company pays a facility fee on the aggregate amount of the commitments under the Credit Agreement in an amount equal to a percentage of such commitments. The interest rate margins and facility fee are based upon the better of the ratings assigned to the Company’s debt by Moody’s Investor Service, Inc. and Standard & Poor’s Ratings Services, subject to limited exceptions. As of March 31, 2022, based upon the Company’s current credit ratings, its margin for Alternate Base Rate loans was 0.000%, its margin for Eurodollar Revolving Loans was 0.900% and its facility fee was 0.100%.

The Credit Agreement contains certain covenants, including limitations on subsidiary indebtedness, a minimum consolidated fixed charge coverage ratio of 2.50:1.00 and a maximum consolidated leverage ratio of 3.50:1.00. The consolidated fixed charge coverage ratio includes a calculation of earnings before interest, taxes, depreciation, amortization, rent and non-cash share-based compensation expense to fixed charges. Fixed charges include interest expense, capitalized interest and rent expense. The consolidated leverage ratio includes a calculation of adjusted debt to earnings before interest, taxes, depreciation, amortization, rent and non-cash share-based compensation expense. Adjusted debt includes outstanding debt, outstanding stand-by letters of credit and similar instruments, five-times rent expense and excludes any premium or discount recorded in conjunction with the issuance of long-term debt. In the event that the Company should default on any covenant (subject to customary grace periods, cure rights and materiality thresholds) contained in the Credit Agreement, certain actions may be taken, including, but not limited to, possible termination of commitments, immediate payment of outstanding principal amounts plus accrued interest and other amounts payable under the Credit Agreement and litigation from lenders. As of March 31, 2022, the Company remained in compliance with all covenants under the Credit Agreement.

In addition to the letters of credit issued under the Credit Agreement described above, as of March 31, 2022, the Company had outstanding letters of credit, primarily to support obligations under workers’ compensation, general liability and other insurance policies, in the amount of \$60.9 million. Substantially all of these letters of credit have a one-year term from the date of issuance and were not issued under the Company’s Credit Agreement or another committed facility.

Senior notes:

As of March 31, 2022, the Company has issued and outstanding a cumulative \$3.9 billion aggregate principal amount of unsecured senior notes, which are due between 2022 and 2031, with UMB Bank, N.A. and U.S. Bank Trust Company as trustees. Interest on the senior notes, ranging from 1.750% to 4.350%, is payable semi-annually and is computed on the basis of a 360-day year. The \$300 million aggregate principal amount of unsecured 3.800% Senior Notes due 2022 were included in “Long-term debt” on the accompanying Condensed Consolidated Balance Sheet as of March 31, 2022, as the Company has the ability and intent to refinance these notes on a long-term basis. None of the Company’s subsidiaries is a guarantor under the senior notes. Each of the senior notes is subject to certain customary covenants, with which the Company complied as of March 31, 2022.

NOTE 6 – WARRANTIES

The Company provides warranties on certain merchandise it sells with warranty periods ranging from 30 days to limited lifetime warranties. The risk of loss arising from warranty claims is typically the obligation of the Company’s suppliers. Certain suppliers provide upfront allowances to the Company in lieu of accepting the obligation for warranty claims. For this merchandise, when sold, the Company bears the risk of loss associated with the cost of warranty claims. Differences between supplier allowances received by the Company, in lieu of warranty obligations and estimated warranty expense, are recorded as an adjustment to cost of sales. Estimated warranty costs, which are recorded as obligations at the time of sale, are based on the historical failure rate of each individual product line. The Company’s historical experience has been that failure rates are relatively consistent over time and that the ultimate cost of warranty claims to the Company has been driven by volume of units sold as opposed to fluctuations in failure rates or the variation of the cost of individual claims.

The Company’s product warranty liabilities are included in “Other current liabilities” on the accompanying Condensed Consolidated Balance Sheets as of March 31, 2022, and December 31, 2021; the following table identifies the changes in the Company’s aggregate product warranty liabilities for the three months ended March 31, 2022 (in thousands):

Warranty liabilities, balance at December 31, 2021	\$	77,199
Warranty claims		(32,247)
Warranty accruals		32,292
Foreign currency translation		15
Warranty liabilities, balance at March 31, 2022	\$	77,259

NOTE 7 – SHARE REPURCHASE PROGRAM

In January of 2011, the Company’s Board of Directors approved a share repurchase program. Under the program, the Company may, from time to time, repurchase shares of its common stock, solely through open market purchases effected through a broker dealer at prevailing market prices, based on a variety of factors such as price, corporate trading policy requirements and overall market conditions. The Company’s Board of Directors may increase or otherwise modify, renew, suspend or terminate the share repurchase program at any time, without prior notice. As announced on November 17, 2021, the Company’s Board of Directors approved a resolution to increase the authorization amount under the share repurchase program by an additional \$1.5 billion, resulting in a cumulative authorization amount of \$18.8 billion. The additional authorization is effective for three years, beginning on its respective announcement date.

The following table identifies shares of the Company’s common stock that have been repurchased as part of the Company’s publicly announced share repurchase program for the three months ended March 31, 2022 and 2021 (in thousands, except per share data):

	For the Three Months Ended March 31,	
	2022	2021
Shares repurchased	1,167	1,475
Average price per share	\$ 664.15	\$ 450.65
Total investment	\$ 775,196	\$ 664,533

As of March 31, 2022, the Company had \$1.2 billion remaining under its share repurchase authorization. Subsequent to the end of the first quarter and through May 9, 2022, the Company repurchased 0.5 million additional shares of its common stock under its share repurchase program, at an average price of \$644.93, for a total investment of \$295.6 million. The Company has repurchased a total of 87.2 million shares of its common stock under its share repurchase program since the inception of the program in January of 2011 and through May 9, 2022, at an average price of \$204.35, for a total aggregate investment of \$17.8 billion.

NOTE 8 – ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

Accumulated other comprehensive income (loss) includes adjustments for foreign currency translations. The tables below summarize activity for changes in accumulated other comprehensive income (loss) for the three months ended March 31, 2022 and 2021 (in thousands):

	Foreign Currency ⁽¹⁾	Total Accumulated Other Comprehensive Loss
Accumulated other comprehensive loss, balance at December 31, 2021	\$ (6,799)	\$ (6,799)
Change in accumulated other comprehensive income	5,063	5,063
Accumulated other comprehensive loss, balance at March 31, 2022	\$ (1,736)	\$ (1,736)

	Foreign Currency ⁽¹⁾	Total Accumulated Other Comprehensive Loss
Accumulated other comprehensive loss, balance at December 31, 2020	\$ (2,155)	\$ (2,155)
Change in accumulated other comprehensive loss	(4,143)	(4,143)
Accumulated other comprehensive loss, balance at March 31, 2021	\$ (6,298)	\$ (6,298)

⁽¹⁾ Foreign currency translation is not shown net of additional U.S. tax, as other basis differences of non-U.S. subsidiaries are intended to be permanently reinvested.

NOTE 9 – REVENUE

The table below identifies the Company’s revenues disaggregated by major customer type for the three months ended March 31, 2022 and 2021 (in thousands):

	For the Three Months Ended March 31,	
	2022	2021
Sales to do-it-yourself customers	\$ 1,815,814	\$ 1,781,166
Sales to professional service provider customers	1,399,364	1,239,086
Other sales and sales adjustments	80,833	70,647
Total sales	\$ 3,296,011	\$ 3,090,899

See Note 6 for information concerning the expected costs associated with the Company's assurance warranty obligations.

NOTE 10 – SHARE-BASED COMPENSATION AND BENEFIT PLANS

The Company recognizes share-based compensation expense based on the fair value of the grants, awards or shares at the time of the grant, award or issuance. Share-based compensation includes stock option awards, restricted stock awards and stock appreciation rights issued under the Company's incentive plans and stock issued through the Company's employee stock purchase plan.

Stock options:

The Company's incentive plans provide for the granting of stock options for the purchase of common stock of the Company to certain key employees of the Company. Employee stock options are granted at an exercise price that is equal to the closing market price of the Company's common stock on the date of the grant. Employee stock options granted under the plans expire after 10 years and typically vest 25% per year, over four years. The Company records compensation expense for the grant date fair value of the option awards evenly over the vesting period or minimum required service period.

The table below identifies stock option activity under these plans during the three months ended March 31, 2022 (in thousands, except per share data):

	Shares (in thousands)	Weighted- Average Exercise Price
Outstanding at December 31, 2021	1,206	\$ 300.09
Granted	90	676.96
Exercised	(50)	311.38
Forfeited or expired	(1)	413.27
Outstanding at March 31, 2022	1,245	\$ 326.81
Exercisable at March 31, 2022	891	\$ 262.06

The fair value of each stock option award is estimated on the date of the grant using the Black-Scholes option pricing model. The Black-Scholes model requires the use of assumptions, including the risk free rate, expected life, expected volatility and expected dividend yield.

- *Risk-free interest rate* – The United States Treasury rates in effect at the time the options are granted for the options' expected life.
- *Expected life* – Represents the period of time that options granted are expected to be outstanding. The Company uses historical experience to estimate the expected life of options granted.
- *Expected volatility* – Measure of the amount, by which the Company's stock price is expected to fluctuate, based on a historical trend.
- *Expected dividend yield* – The Company has not paid, nor does it have plans in the foreseeable future to pay, any dividends.

The table below identifies the weighted-average assumptions used for grants awarded during the three months ended March 31, 2022 and 2021:

	March 31,	
	2022	2021
Risk free interest rate	1.61 %	0.85 %
Expected life	6.5 Years	6.4 Years
Expected volatility	28.5 %	29.9 %
Expected dividend yield	— %	— %

The following table summarizes activity related to stock options awarded by the Company for the three months ended March 31, 2022 and 2021 (in thousands, except per share data):

	For the Three Months Ended March 31,	
	2022	2021
Compensation expense for stock options awarded	\$ 5,301	\$ 5,262
Income tax benefit from compensation expense related to stock options	1,346	1,296
Weighted-average grant-date fair value of options awarded	\$ 217.68	\$ 144.30

The remaining unrecognized compensation expense related to unvested stock option awards at March 31, 2022, was \$44.0 million, and the weighted-average period of time over which this cost will be recognized is 2.8 years.

Other share-based compensation plans:

The Company sponsors other share-based compensation plans: an employee stock purchase plan and incentive plans that provide for the awarding of shares of restricted stock to certain key employees and directors. The Company's employee stock purchase plan (the "ESPP") permits eligible employees to purchase shares of the Company's common stock at 85% of the fair market value. The fair value of shares issued under the ESPP is based on the average of the high and low market prices of the Company's common stock during the offering periods, and compensation expense is recognized based on the discount between the fair value and the employee purchase price for the shares sold to employees. Restricted stock awarded under the incentive plans to certain key employees and directors vests after one-year or evenly over a three-year period and is held in escrow until such vesting has occurred. The fair value of shares awarded under the incentive plans is based on the closing market price of the Company's common stock on the date of the award, and compensation expense is recorded evenly over the vesting period or the minimum required service period.

The table below summarizes activity related to the Company's other share-based compensation plans for the three months ended March 31, 2022 and 2021 (in thousands):

	For the Three Months Ended March 31,	
	2022	2021
Compensation expense for shares issued under the ESPP	\$ 793	\$ 650
Income tax benefit from compensation expense related to shares issued under the ESPP	201	160
Compensation expense for restricted shares awarded	439	380
Income tax benefit from compensation expense related to restricted awards	\$ 112	\$ 94

Profit sharing and savings plan:

The Company sponsors a contributory profit sharing and savings plan (the "401(k) Plan") that covers substantially all employees who are at least 21 years of age and have completed one year of service. The Company makes matching contributions equal to 100% of the first 2% of each employee's wages that are contributed and 25% of the next 4% of each employee's wages that are contributed. An employee generally must be employed on December 31 to receive that year's Company matching contribution, with the matching contribution funded annually at the beginning of the subsequent year following the year in which the matching contribution was earned. The Company may also make additional discretionary profit sharing contributions to the plan on an annual basis as determined by the Board of Directors. The Company did not make any discretionary contributions to the 401(k) Plan during the three months ended March 31, 2022 or 2021. The Company expensed matching contributions under the 401(k) Plan in the amount of \$8.6 million and \$7.2 million for the three months ended March 31, 2022 and 2021, respectively, which were primarily included in "Selling, general and administrative expenses" on the accompanying Condensed Consolidated Statements of Income.

Nonqualified deferred compensation plan:

The Company sponsors a nonqualified deferred compensation plan (the "Deferred Compensation Plan") for highly compensated employees whose contributions to the 401(k) Plan are limited due to the application of the annual limitations under the Internal Revenue Code. The Deferred Compensation Plan provides these employees with the opportunity to defer the full 6% of matched compensation, including salary and incentive based compensation that was precluded under the Company's 401(k) Plan, which is then matched by the Company using the same formula as the 401(k) Plan. An employee generally must be employed on December 31 to receive that year's Company matching contribution, with the matching contribution funded annually at the beginning of the subsequent year following the year in which the matching contribution was earned. In the event of bankruptcy, the assets of this plan are available to satisfy the claims of general creditors. The Company has an unsecured obligation to pay, in the future, the value of the deferred compensation and Company match, adjusted to reflect the performance, whether positive or negative, of selected investment measurement options chosen by each participant during the deferral period. The liability for compensation deferred under the Deferred Compensation Plan was \$53.4 million and \$52.5 million as of March 31, 2022, and December 31, 2021, respectively, which was included in "Other liabilities" on the

accompanying Condensed Consolidated Balance Sheets. The Company expensed matching contributions under the Deferred Compensation Plan in the amount of \$0.1 million for each of the three months ended March 31, 2022 and 2021, which were included in “Selling, general and administrative expenses” on the accompanying Condensed Consolidated Statements of Income.

Stock appreciation rights:

The Company’s incentive plans provide for the granting of stock appreciation rights, which expire after 10 years and vest 25% per year, over four years, and are settled in cash. As of March 31, 2022, there were 12,398 stock appreciation rights outstanding, and during the three months ended March 31, 2022, there were 2,587 stock appreciation rights granted. The liability for compensation to be paid for redeemed stock appreciation rights was \$1.2 million and \$1.3 million as of March 31, 2022, and December 31, 2021, respectively, which were included in “Other liabilities” on the Condensed Consolidated Balance Sheets. The Company recorded compensation benefit for stock appreciation rights in the amount of less than \$0.1 million and compensation expense for stock appreciation rights in the amount of \$0.2 million for the three months ended March 31, 2022 and 2021, respectively, which were included in “Selling, general and administrative expenses” on the accompanying Condensed Consolidated Statements of Income.

NOTE 11 – EARNINGS PER SHARE

The following table illustrates the computation of basic and diluted earnings per share for the three months ended March 31, 2022 and 2021 (in thousands, except per share data):

	For the Three Months Ended March 31,	
	2022	2021
Numerator (basic and diluted):		
Net income	\$ 481,880	\$ 501,609
Denominator:		
Weighted-average common shares outstanding – basic	66,572	70,383
Effect of stock options ⁽¹⁾	618	632
Weighted-average common shares outstanding – assuming dilution	67,190	71,015
Earnings per share:		
Earnings per share-basic	\$ 7.24	\$ 7.13
Earnings per share-assuming dilution	\$ 7.17	\$ 7.06
Antidilutive potential common shares not included in the calculation of diluted earnings per share:		
Stock options ⁽¹⁾	115	211
Weighted-average exercise price per share of antidilutive stock options ⁽¹⁾	\$ 657.14	\$ 437.90

⁽¹⁾ See Note 10 for further information concerning the terms of the Company’s share-based compensation plans.

For the three months ended March 31, 2022 and 2021, the computation of diluted earnings per share did not include certain securities. These securities represent underlying stock options not included in the computation of diluted earnings per share, because the inclusion of such equity awards would have been antidilutive.

See Note 7 for information concerning the Company’s subsequent share repurchases.

NOTE 12 – LEGAL MATTERS

The Company is currently involved in litigation incidental to the ordinary conduct of the Company’s business. Based on existing facts and historical patterns, the Company accrues for litigation losses in instances where an adverse outcome is probable and the Company is able to reasonably estimate the probable loss in accordance with Accounting Standard Codification 450-20. The Company also accrues for an estimate of legal costs to be incurred for litigation matters. Although the Company cannot ascertain the amount of liability that it may incur from legal matters, it does not currently believe that, in the aggregate, these matters, taking into account applicable insurance and accruals, will have a material adverse effect on its consolidated financial position, results of operations or cash flows in a particular quarter or annual period.

NOTE 13 – RECENT ACCOUNTING PRONOUNCEMENTS

No recent accounting pronouncements or changes in accounting pronouncements have occurred since those discussed in the Company’s

Annual Report on Form 10-K for the year ended December 31, 2021, that are of material significance, or have potential material significance, to the Company.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Unless otherwise indicated, “we,” “us,” “our” and similar terms, as well as references to the “Company” or “O’Reilly,” refer to O’Reilly Automotive, Inc. and its subsidiaries.

In Management’s Discussion and Analysis, we provide a historical and prospective narrative of our general financial condition, results of operations, liquidity and certain other factors that may affect our future results, including

- an overview of the key drivers and other influences on the automotive aftermarket industry;
- our results of operations for the three months ended March 31, 2022 and 2021;
- our liquidity and capital resources;
- our critical accounting estimates; and
- recent accounting pronouncements that may affect our Company.

The review of Management’s Discussion and Analysis should be made in conjunction with our condensed consolidated financial statements, related notes and other financial information, forward-looking statements and other risk factors included elsewhere in this quarterly report.

FORWARD-LOOKING STATEMENTS

We claim the protection of the safe-harbor for forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. You can identify these statements by forward-looking words such as “estimate,” “may,” “could,” “will,” “believe,” “expect,” “would,” “consider,” “should,” “anticipate,” “project,” “plan,” “intend” or similar words. In addition, statements contained within this quarterly report that are not historical facts are forward-looking statements, such as statements discussing, among other things, expected growth, store development, integration and expansion strategy, business strategies, future revenues and future performance. These forward-looking statements are based on estimates, projections, beliefs and assumptions and are not guarantees of future events and results. Such statements are subject to risks, uncertainties and assumptions, including, but not limited to, the COVID-19 pandemic or other public health crises; the economy in general; inflation; consumer debt levels; product demand; the market for auto parts; competition; weather; tariffs; availability of key products and supply chain disruptions; business interruptions, including terrorist activities, war and the threat of war; failure to protect our brand and reputation; challenges in international markets; volatility of the market price of our common stock; our increased debt levels; credit ratings on public debt; historical growth rate sustainability; our ability to hire and retain qualified employees; risks associated with the performance of acquired businesses; information security and cyber-attacks; and governmental regulations. Actual results may materially differ from anticipated results described or implied in these forward-looking statements. Please refer to the “Risk Factors” section of our Annual Report on Form 10-K for the year ended December 31, 2021, and subsequent Securities and Exchange Commission filings, for additional factors that could materially affect our financial performance. Forward-looking statements speak only as of the date they were made, and we undertake no obligation to publicly update any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

OVERVIEW

We are a specialty retailer of automotive aftermarket parts, tools, supplies, equipment and accessories in the United States and Mexico. We are one of the largest U.S. automotive aftermarket specialty retailers, selling our products to both DIY customers and professional service providers – our “dual market strategy.” Our stores carry an extensive product line consisting of new and remanufactured automotive hard parts, maintenance items, accessories, a complete line of auto body paint and related materials, automotive tools and professional service provider service equipment.

Our extensive product line includes an assortment of products that are differentiated by quality and price for most of the product lines we offer. For many of our product offerings, this quality differentiation reflects “good,” “better,” and “best” alternatives. Our sales and total gross profit dollars are, generally, highest for the “best” quality category of products. Consumers’ willingness to select products at a higher point on the value spectrum is a driver of enhanced sales and profitability in our industry. We have ongoing initiatives focused on marketing and training to educate customers on the advantages of ongoing vehicle maintenance, as well as “purchasing up” on the value spectrum.

Our stores also offer enhanced services and programs to our customers, including used oil, oil filter and battery recycling; battery, wiper and bulb replacement; battery diagnostic testing; electrical and module testing; check engine light code extraction; loaner tool program; drum and rotor resurfacing; custom hydraulic hoses; professional paint shop mixing and related materials; and machine shops. As of March 31, 2022, we operated 5,811 stores in 47 U.S. states and 27 stores in Mexico.

We are influenced by a number of general macroeconomic factors that impact both our industry and consumers, including, but not limited to, inflation, including rising consumer staples, fuel and energy costs, unemployment trends, interest rates and other economic factors. Future changes, such as continued broad-based inflation and further rapid increases in fuel costs that exceed wage growth, may negatively impact our consumers' level of disposable income, and we cannot predict the degree these changes, or other future changes, may have on our business or industry.

We believe the key drivers of current and future long-term demand for the products sold within the automotive aftermarket include the number of U.S. miles driven, number of U.S. registered vehicles, new light vehicle registrations and average vehicle age.

Number of Miles Driven

The number of total miles driven in the U.S. influences the demand for repair and maintenance products sold within the automotive aftermarket. In total, vehicles in the U.S. are driven approximately three trillion miles per year, resulting in ongoing wear and tear and a corresponding continued demand for the repair and maintenance products necessary to keep these vehicles in operation. According to the U.S. Department of Transportation, the number of total miles driven in the U.S. decreased 13.2% in 2020, as a result of responses to the COVID-19 pandemic, including work from home arrangements and reduced travel. However for 2021, miles driven improved and increased 11.2%, and through February of 2022, year-to-date miles driven have continued to improve and increased 7.2%. Total miles driven can also be impacted by macroeconomic factors, including rapid increases in fuel cost, but we are unable to predict the degree of impact these factors may have on miles driven in the future.

Size and Age of the Vehicle Fleet

The total number of vehicles on the road and the average age of the vehicle population heavily influence the demand for products sold within the automotive aftermarket industry. As reported by The Auto Care Association, the total number of registered vehicles increased 12.7% from 2010 to 2020, bringing the number of light vehicles on the road to 281 million by the end of 2020. In 2021, the rate of new vehicle sales was pressured due to supply chain constraints experienced by manufacturers, and the seasonally adjusted annual rate of light vehicle sales in the U.S. ("SAAR") was below the historical average at approximately 12.4 million. The impact of supply chain constraints is expected to continue to limit new vehicle production capacity in 2022, making it difficult to determine the ultimate forecast of new vehicle sales. However, the current 2022 outlook for the SAAR is estimated to be approximately 13.3 million, which again remains below the historical average. From 2010 to 2020, vehicle scrappage rates have remained relatively stable, ranging from 4.1% to 5.7% annually. As a result, over the past decade, the average age of the U.S. vehicle population has increased, growing 12.3%, from 10.6 years in 2010 to 11.9 years in 2020. While the annual changes to the vehicle population resulting from new vehicle sales and the fluctuation in vehicle scrappage rates in any given year represent a small percentage of the total light vehicle population and have a muted impact on the total number and average age of vehicles on the road over the short term, we believe our business benefits from the current environment of a new vehicle scarcity and higher than typical used vehicle prices, as consumers are more willing to continue to invest in their current vehicle.

We believe the increase in average vehicle age over the long-term can be attributed to better engineered and manufactured vehicles, which can be reliably driven at higher mileages due to better quality power trains, interiors and exteriors, and the consumer's willingness to invest in maintaining these higher-mileage, better built vehicles. As the average age of vehicles on the road increases, a larger percentage of miles are being driven by vehicles that are outside of a manufacturer warranty. These out-of-warranty, older vehicles generate strong demand for automotive aftermarket products as they go through more routine maintenance cycles, have more frequent mechanical failures and generally require more maintenance than newer vehicles. We believe consumers will continue to invest in these reliable, higher-quality, higher-mileage vehicles and these investments, along with an increasing total light vehicle fleet, will support continued demand for automotive aftermarket products.

Inflationary cost pressures impact our business; however, historically we have been successful, in many cases, in reducing the effects of merchandise cost increases, principally by taking advantage of supplier incentive programs, economies of scale resulting from increased volume of purchases and selective forward buying. To the extent our acquisition costs increase due to base commodity price increases or other input cost increases affecting the entire industry, we have typically been able to pass along these cost increases through higher selling prices for the affected products. As a result, we do not believe inflation has had a material adverse effect on our operations.

To some extent, our business is seasonal, primarily as a result of the impact of weather conditions on customer buying patterns. While we have historically realized operating profits in each quarter of the year, our store sales and profits have historically been higher in the second and third quarters (April through September) than in the first and fourth quarters (October through March) of the year.

We remain confident in our ability to gain market share in our existing markets and grow our business in new markets by focusing on our dual market strategy and the core O'Reilly values of hard work and excellent customer service.

RESULTS OF OPERATIONS

Sales:

Sales for the three months ended March 31, 2022, increased \$205 million or 7% to \$3.30 billion from \$3.09 billion for the same period one year ago. Comparable store sales for stores open at least one year increased 4.8% and 24.8% for the three months ended March 31, 2022 and 2021, respectively. Comparable store sales are calculated based on the change in sales for U.S. stores open at least one year and exclude sales of specialty machinery, sales to independent parts stores and sales to Team Members. Online sales for ship-to-home orders and pickup in-store orders for U.S. stores open at least one year are included in the comparable store sales calculation.

The following table presents the components of the increase in sales for the three months ended March 31, 2022 (in millions):

	Increase in Sales for the Three Months Ended March 31, 2022 Compared to the Same Period in 2021
Store sales:	
Comparable store sales	\$ 144
Non-comparable store sales:	
Sales for stores opened throughout 2021, excluding stores open at least one year that are included in comparable store sales, and Mexico store sales	43
Sales for stores opened throughout 2022	8
Sales for stores that have closed, including temporarily closed stores	—
Non-store sales:	
Includes sales of machinery and sales to independent parts stores and Team Members	10
Total increase in sales	\$ 205

We believe our increased sales are the result of store growth, the high levels of customer service provided by our well-trained and technically proficient Team Members, superior inventory availability, including same day and over-night access to inventory from our regional distribution centers and hub store network, enhanced services and programs offered in our stores, a broader selection of product offerings in most stores with a dynamic catalog system to identify and source parts, a targeted promotional and advertising effort through a variety of media and localized promotional events, continued improvement in the merchandising and store layouts of our stores, compensation programs for all store Team Members that provide incentives for performance and our continued focus on serving both DIY and professional service provider customers. In addition, despite the global supply chain disruptions that created inventory availability challenges for our industry, during the three months ended March 31, 2022, we believe the strength of our distribution network and our strong supplier relationships allowed us to maintain better in-stock inventory positions than the broader market and contributed to our sales growth.

Our comparable store sales increase for the three months ended March 31, 2022, was driven by increases in average ticket values for both professional service provider and DIY customers, partially offset by negative transaction counts. Average ticket values benefited from increases in average selling prices, on a same-SKU basis, as compared to the same period in 2021, driven by increases in acquisition costs of inventory, which were passed on in selling prices. Average ticket values also continue to be positively impacted by the increasing complexity and cost of replacement parts necessary to maintain the current population of better-engineered and more technically advanced vehicles. These better-engineered, more technically advanced vehicles require less frequent repairs, as the component parts are more durable and last for longer periods of time. The resulting decrease in repair frequency creates pressure on customer transaction counts; however, when repairs are needed, the cost of replacement parts is, on average, greater, which is a benefit to average ticket values. The decrease in transaction counts was driven by a challenging comparison to the strong DIY customer transaction counts in the prior year, aided by government stimulus, and unfavorable weather conditions in some of our markets during the quarter, including the late start to spring, partially offset by positive transaction counts from professional service provider customers.

We opened 52 net, new U.S. stores and two new stores in Mexico during the three months ended March 31, 2022, compared to opening 66 net, new U.S. stores during the three months ended March 31, 2021. As of March 31, 2022, we operated 5,811 stores in 47 U.S. states and 27 stores in Mexico compared to 5,660 stores in 47 U.S. states and 22 stores in Mexico at March 31, 2021. We anticipate total new store growth to be 175 to 185 net, new store openings in 2022.

Gross profit:

Gross profit for the three months ended March 31, 2022, increased 4% to \$1.71 billion (or 51.8% of sales) from \$1.64 billion (or 53.1% of sales) for the same period one year ago. The increase in gross profit dollars for the three months ended March 31, 2022, was primarily the result of new store sales and the increase in comparable store sales at existing stores. The decrease in gross profit as a percentage of

sales for the three months ended March 31, 2022, was primarily due to the impact from the rollout of our professional pricing initiative, which was a strategic investment aimed at ensuring we are more competitively priced on the professional side of our business, and a greater percentage of our total sales mix generated from professional service provider customers, which carry a lower gross margin than DIY sales.

Selling, general and administrative expenses:

Selling, general and administrative expenses (“SG&A”) for the three months ended March 31, 2022, increased 9% to \$1.04 billion (or 31.5% of sales) from \$950 million (or 30.7% of sales) for the same period one year ago. The increase in total SG&A dollars for the three months ended March 31, 2022, was the result of additional Team Members, facilities and vehicles to support our increased sales and store count. The increase in SG&A as a percentage of sales for the three months ended March 31, 2022, was primarily due to inflationary pressures on wages, benefits and fuel costs and increased payroll, as compared to the same period one year ago, when store payroll hours were constrained due to expense control measures in response to the pandemic and the difficult labor environment.

Operating income:

As a result of the impacts discussed above, operating income for the three months ended March 31, 2022, decreased 3% to \$670 million (or 20.3% of sales) from \$691 million (or 22.4% of sales) for the same period one year ago.

Other income and expense:

Total other expense for the three months ended March 31, 2022, increased 3% to \$36 million (or 1.1% of sales) from \$35 million (or 1.1% of sales) for the same period one year ago. The increase in total other expense for the three months ended March 31, 2022, was the result of a decrease in the value of our trading securities, partially offset by decreased interest expense on lower average outstanding borrowings.

Income taxes:

Our provision for income taxes for the three months ended March 31, 2022, decreased 2% to \$151 million (23.9% effective tax rate) from \$154 million (23.5% effective tax rate) for the same period one year ago. The decrease in our provision for income taxes for the three months ended March 31, 2022, was the result of lower taxable income, partially offset by lower excess tax benefits from share-based compensation. The increase in our effective tax rate for the three months ended March 31, 2022, was the result of lower excess tax benefits from share-based compensation.

Net income:

As a result of the impacts discussed above, net income for the three months ended March 31, 2022, decreased 4% to \$482 million (or 14.6% of sales) from \$502 million (or 16.2% of sales) for the same period one year ago.

Earnings per share:

Our diluted earnings per common share for the three months ended March 31, 2022, increased 2% to \$7.17 on 67 million shares from \$7.06 on 71 million shares for the same period one year ago.

LIQUIDITY AND CAPITAL RESOURCES

Our long-term business strategy requires capital to open new stores, fund strategic acquisitions, expand distribution infrastructure, operate and maintain our existing stores and may include the opportunistic repurchase of shares of our common stock through our Board-approved share repurchase program. Our material cash requirements necessary to maintain the current operations of our long-term business strategy include, but are not limited to, inventory purchases, human capital obligations, including payroll and benefits, contractual obligations, including debt and interest obligations, capital expenditures, payment of income taxes and other operational priorities. We expect to fund our short- and long-term cash and capital requirements with our primary sources of liquidity, which include funds generated from the normal course of our business operations and borrowings under our unsecured revolving credit facility. However, there can be no assurance that we will continue to generate cash flows or maintain liquidity at or above recent levels, as we are unable to predict decreased demand for our products, changes in customer buying patterns or the impact of the uncertainty and disruption caused by the COVID-19 pandemic. Additionally, these factors could also impact our ability to meet the debt covenants of our credit agreement and, therefore, negatively impact the funds available under our unsecured revolving credit facility.

There have been no material changes to the contractual obligations, to which we are committed, since those discussed in our Annual Report on Form 10-K for the year ended December 31, 2021.

The following table identifies cash provided by/(used in) our operating, investing and financing activities for the three months ended March 31, 2022 and 2021 (in thousands):

	For the Three Months Ended March 31,	
	2022	2021
Liquidity:		
Total cash provided by/(used in):		
Operating activities	\$ 689,886	\$ 890,672
Investing activities	(104,981)	(93,757)
Financing activities	(755,619)	(651,304)
Effect of exchange rate changes on cash	147	(371)
Net (decrease) increase in cash and cash equivalents	<u>\$ (170,567)</u>	<u>\$ 145,240</u>
Capital expenditures	\$ 103,990	\$ 94,879
Free cash flow ⁽¹⁾	579,350	789,780

⁽¹⁾ Calculated as net cash provided by operating activities, less capital expenditures and excess tax benefit from share-based compensation payments, and investment in tax credit equity investments for the period.

Operating activities:

The decrease in net cash provided by operating activities during the three months ended March 31, 2022, compared to the same period in 2021, was primarily due to a larger decrease in accrued payroll and benefits, a smaller decrease in net inventory investment and a decrease in net income. The larger decrease in accrued payroll and benefits was primarily attributable to payroll payments and higher accrued incentive compensation payments in 2022 versus the same period in 2021. The smaller decrease in net inventory investment was driven by our initiatives to increase store level inventory in 2022.

Investing activities:

The increase in net cash used in investing activities during the three months ended March 31, 2022, compared to the same period in 2021, was the result of an increase in capital expenditures. The increase in capital expenditures was primarily due to the timing of store and distribution expansion projects in the current period, as compared to the same period in the prior year.

Financing activities:

The increase in net cash used in financing activities during the three months ended March 31, 2022, compared to the same period in 2021, was attributable to an increase in repurchases of our common stock.

Debt instruments:

See Note 5 “Financing” to the Condensed Consolidated Financial Statements for information concerning the Company’s credit agreement, unsecured revolving credit facility, outstanding letters of credit and unsecured senior notes.

Debt covenants:

The indentures governing our senior notes contain covenants that limit our ability and the ability of certain of our subsidiaries to, among other things, create certain liens on assets to secure certain debt and enter into certain sale and leaseback transactions, and limit our ability to merge or consolidate with another company or transfer all or substantially all of our property, in each case as set forth in the indentures. These covenants are, however, subject to a number of important limitations and exceptions. As of March 31, 2022, we were in compliance with the covenants applicable to our senior notes.

The Credit Agreement contains certain covenants, including limitations on indebtedness, a minimum consolidated fixed charge coverage ratio of 2.50:1.00 and a maximum consolidated leverage ratio of 3.50:1.00. The consolidated fixed charge coverage ratio includes a calculation of earnings before interest, taxes, depreciation, amortization, rent and non-cash share-based compensation expense to fixed charges. Fixed charges include interest expense, capitalized interest and rent expense. The consolidated leverage ratio includes a calculation of adjusted debt to earnings before interest, taxes, depreciation, amortization, rent and non-cash share-based compensation expense. Adjusted debt includes outstanding debt, outstanding stand-by letters of credit and similar instruments, five-times rent expense and excludes any premium or discount recorded in conjunction with the issuance of long-term debt. In the event that we should default on any covenant contained within the Credit Agreement, certain actions may be taken, including, but not limited to, possible termination of commitments, immediate payment of outstanding principal amounts plus accrued interest and other amounts payable under the Credit Agreement and litigation from our lenders.

We had a consolidated fixed charge coverage ratio of 6.93 times and 6.46 times as of March 31, 2022 and 2021, respectively, and a consolidated leverage ratio of 1.62 times and 1.77 times as of March 31, 2022 and 2021, respectively, remaining in compliance with all covenants related to the borrowing arrangements.

The table below outlines the calculations of the consolidated fixed charge coverage ratio and consolidated leverage ratio covenants, as defined in the Credit Agreement governing the Revolving Credit Facility, for the twelve months ended March 31, 2022 and 2021 (dollars in thousands):

	For the Twelve Months Ended March 31,	
	2022	2021
GAAP net income	\$ 2,144,956	\$ 1,953,473
Add: Interest expense	142,103	159,246
Rent expense ⁽¹⁾	375,942	358,653
Provision for income taxes	614,392	589,099
Depreciation expense	323,539	311,037
Amortization expense	7,844	9,392
Non-cash share-based compensation	24,897	23,164
Non-GAAP EBITDAR	<u>\$ 3,633,673</u>	<u>\$ 3,404,064</u>
Interest expense	\$ 142,103	\$ 159,246
Capitalized interest	6,425	9,324
Rent expense ⁽¹⁾	375,942	358,653
Total fixed charges	<u>\$ 524,470</u>	<u>\$ 527,223</u>
Consolidated fixed charge coverage ratio	6.93	6.46
GAAP debt	\$ 3,827,891	\$ 4,124,168
Add: Stand-by letters of credit	139,569	84,045
Discount on senior notes	4,188	4,892
Debt issuance costs	17,921	20,940
Five-times rent expense	1,879,710	1,793,265
Non-GAAP adjusted debt	<u>\$ 5,869,279</u>	<u>\$ 6,027,310</u>
Consolidated leverage ratio	1.62	1.77

⁽¹⁾ The table below outlines the calculation of Rent expense and reconciles Rent expense to Total lease cost, per Accounting Standard Codification 842 (“ASC 842”) the most directly comparable GAAP financial measure, for the twelve months ended March 31, 2022 and 2021 (in thousands):

Total lease cost, per ASC 842, for the twelve months ended March 31, 2022	\$ 448,384
Less: Variable non-contract operating lease components, related to property taxes and insurance, for the twelve months ended March 31, 2022	72,442
Rent expense for the twelve months ended March 31, 2022	<u>\$ 375,942</u>
Total lease cost, per ASC 842, for the twelve months ended March 31, 2021	\$ 426,126
Less: Variable non-contract operating lease components, related to property taxes and insurance, for the twelve months ended March 31, 2021	67,473
Rent expense for the twelve months ended March 31, 2021	<u>\$ 358,653</u>

The table below outlines the calculation of Free cash flow and reconciles Free cash flow to Net cash provided by operating activities, the most directly comparable GAAP financial measure, for the three months ended March 31, 2022 and 2021 (in thousands):

	For the Three Months Ended March 31,	
	2022	2021
Cash provided by operating activities	\$ 689,886	\$ 890,672
Less: Capital expenditures	103,990	94,879
Excess tax benefit from share-based compensation payments	2,466	6,007
Investment in tax credit equity investments	4,080	6
Free cash flow	<u>\$ 579,350</u>	<u>\$ 789,780</u>

Free cash flow, the consolidated fixed charge coverage ratio and the consolidated leverage ratio discussed and presented in the tables above are not derived in accordance with United States generally accepted accounting principles (“GAAP”). We do not, nor do we suggest investors should, consider such non-GAAP financial measures in isolation from, or as a substitute for, GAAP financial information. We believe that the presentation of our free cash flow, consolidated fixed charge coverage ratio and consolidated leverage ratio provides meaningful supplemental information to both management and investors and reflects the required covenants under the Credit Agreement. We include these items in judging our performance and believe this non-GAAP information is useful to investors as well. Material limitations of these non-GAAP measures are that such measures do not reflect actual GAAP amounts. We compensate for such limitations by presenting, in the tables above, a reconciliation to the most directly comparable GAAP measures.

Share repurchase program:

See Note 8 “Share Repurchase Program” to the Consolidated Financial Statements for information on our share repurchase program.

CRITICAL ACCOUNTING ESTIMATES

The preparation of our financial statements in accordance with GAAP requires the application of certain estimates and judgments by management. Management bases its assumptions, estimates, and adjustments on historical experience, current trends and other factors believed to be relevant at the time the condensed consolidated financial statements are prepared. There have been no material changes in the critical accounting estimates since those discussed in our Annual Report on Form 10-K for the year ended December 31, 2021.

RECENT ACCOUNTING PRONOUNCEMENTS

See Note 13 “Recent Accounting Pronouncements” to the Condensed Consolidated Financial Statements for information about recent accounting pronouncements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Interest rate risk:

We are subject to interest rate risk to the extent we borrow against our unsecured revolving credit facility (the “Revolving Credit Facility”) with variable interest rates based on either an Alternative Base Rate or Adjusted LIBO Rate, as defined in the credit agreement governing the Revolving Credit Facility. As of March 31, 2022, we had no outstanding borrowings under our Revolving Credit Facility.

Cash equivalents risk:

We invest certain of our excess cash balances in short-term, highly-liquid instruments with maturities of 90 days or less. We do not expect any material losses from our invested cash balances and we believe that our interest rate exposure is minimal. As of March 31, 2022, our cash and cash equivalents totaled \$191.5 million.

Foreign currency risk:

Foreign currency exposures arising from transactions include firm commitments and anticipated transactions denominated in a currency other than our entities’ functional currencies. To minimize our risk, we generally enter into transactions denominated in the respective functional currencies. Our foreign currency exposure arises from Mexican peso-denominated revenues and profits and their translation into U.S. dollars.

We view our investments in Mexican subsidiaries as long-term. The net asset exposure in the Mexican subsidiaries translated into U.S. dollars using the period-end exchange rates was \$165.7 million at March 31, 2022. The period-end exchange rate of the Mexican peso, relative to the U.S. dollar, strengthened by approximately 3.2% from December 31, 2021. The potential loss in value of our net assets in the Mexican subsidiaries resulting from a 10% change in quoted foreign currency exchange rates at March 31, 2022, would be approximately \$15.1 million. Any changes in our net assets in the Mexican subsidiaries relating to foreign currency exchange rates would be reflected in the financial statements through the foreign currency translation component of accumulated other comprehensive income, unless the Mexican subsidiaries are sold or otherwise disposed. A 10% change in average exchange rates would not have had a material impact on our results of operations.

Our market risks have not materially changed since those discussed in our Annual Report on Form 10-K for the year ended December 31, 2021.

Item 4. Controls and Procedures

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

As of the end of the period covered by this report, the management of the Company, under the supervision and with the participation of its Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures pursuant to Rule 13a-15(b) and as defined in Rule 13a-15(e) of the Securities Exchange Act of 1934, as amended ("the Exchange Act"). Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company, including its consolidated subsidiaries, in reports filed under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

CHANGES IN INTERNAL CONTROLS

There were no changes in the Company's internal control over financial reporting during the fiscal quarter ended March 31, 2022, that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is currently involved in litigation incidental to the ordinary conduct of the Company's business. Based on existing facts and historical patterns, the Company accrues for litigation losses in instances where an adverse outcome is probable and the Company is able to reasonably estimate the probable loss in accordance with Accounting Standard Codification 450-20. The Company also accrues for an estimate of legal costs to be incurred for litigation matters. Although the Company cannot ascertain the amount of liability that it may incur from legal matters, it does not currently believe that, in the aggregate, these matters, taking into account applicable insurance and accruals, will have a material adverse effect on its consolidated financial position, results of operations or cash flows in a particular quarter or annual period.

Item 1A. Risk Factors

As of March 31, 2022, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2021.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The Company had no sales of unregistered securities during the three months ended March 31, 2022. The following table identifies all repurchases during the three months ended March 31, 2022, of any of the Company's securities registered under Section 12 of the Securities Exchange Act of 1934, as amended, by or on behalf of the Company or any affiliated purchaser (in thousands, except per share data):

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs	Maximum Dollar Value of Shares that May Yet Be Purchased Under the Programs ⁽¹⁾
January 1, 2022, to January 31, 2022	214	\$ 665.56	214	\$ 1,862,777
February 1, 2022, to February 28, 2022	432	652.03	432	1,581,417
March 1, 2022, to March 31, 2022	521	673.62	521	\$ 1,230,339
Total as of March 31, 2022	1,167	\$ 664.15	1,167	

⁽¹⁾ The authorization under the share repurchase program that currently has capacity is scheduled to expire on November 17, 2024. No other share repurchase programs existed during the three months ended March 31, 2022. See Note 7 "Share Repurchase Program" to the Condensed Consolidated Financial Statements for further information on our share repurchases.

Item 6. Exhibits

I, Gregory D. Johnson, certify that:

1. I have reviewed this report on Form 10-Q of O'Reilly Automotive, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

This certification is made solely for purposes of 18 U.S.C. Section 1350, and not for any other purpose. This certification accompanies the Report pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 and shall not, except to the extent required by the Sarbanes-Oxley Act of 2002, be deemed filed by the Company for purposes of Section 18 of the Securities Exchange Act of 1934, as amended.

A signed original of this written statement required by Section 906 of the Sarbanes-Oxley Act of 2002 has been provided to the Company and will be retained by the Company and furnished to the Securities and Exchange Commission or its staff upon request.
